## Language and Communication Skills

The university has procured the online English language & improvement resources from the New India Publication House, New Delhi for scheduled cast and scheduled tribes' students of the university. This course contains a video module that focused on developing and polishing the English language among the students, with 24 X 7 access even from cell phones (<https://www.nipaers.com/english-language-learning>). This course is beneficial to those students who are not confident in speaking and writing the English language as the majority of the students who opt for agriculture and allied subjects for their higher education belong to rural areas. This course provides video-based interactive learning which makes them more proficient in understanding the English language.

## Report

Collaboration with SIIC IIT Kanpur: The Counselling and Placement cell of the university and SIIC IIT Kanpur did collaboration. SIIC IIT Kanpur has developed **the REC Innovation Platform** as its initiative towards developing and motivating young minds in colleges and universities across the state of Uttar Pradesh. The program is supported by the Rural Electrification Corporation Limited (RECL), a public sector undertaking in India. In this program, students will undergo a process of research conceptualization and will be encouraged to be creative, critically think, collaborate, and communicate their research findings on a topic ranging from science and commerce to law and humanities. Altogether 26 students of BUAT have been selected through a test and they are associated in different fields like Agritech, Biotech, Solar Energy, etc

Certificate of Participation in REC innovation platform
